PRODUCT CATALOGUE

LETTER FROM THE CEO

Today, a walk down 7th Avenue is truly a walk through the history of Ybor City. Now known as Tampa's National Historic Landmark District, Ybor City in the 1880s was a melting pot of immigrants from Spain, Cuba, Germany, and Italy and home to some of the world's most famous cigar factories.

The roots of Ybor City's cigar industry began with Vicente Martinez Ybor who started his own cigar making factory in 1853 in Havana, Cuba. He moved his business to Tampa due to the high tariff on Cuban cigars and the eruption of the Cuban Revolution. At 68 years old, he started developing a company town to help cigar workers have a good living and working environment.

In 1880, the population was about 700 and then increased to over 3,000 when Tampa included Ybor City into the municipality seven years later. Most early Ybor City residents made their living from cigar making, while the occupations of many other workers revolved around the cigar trade.

As the town developed, Cubans and Spaniards together dominated the cigar industry. Ybor City became known for its unique collection of mutual-aid societies and multi-ethnic population and remained the Cigar Capital of the World until the 1930s.

As Ybor City began to grow, so did cigar consumption. Machinery was improved for rolling cigars, which had the ability to create products that lived up to the high reputation of hand-rolled cigars. Today, the market is filled with a wide variety of cigars that can even be custom designed. Much like the highly-regarded cigar industry, The Great American Rolling Paper Company strives to become the go-to source for premium rolling papers, as an offset to the cigar factories and local establishments that built Ybor City, for the cannabis space.

Here at Great American, we offer only the highest quality Rolling Papers and packaging. I have sampled and tested rolling papers from numerous vendors all over the world to make sure we offer the highest quality rolling paper that exists in the marketplace today. Our rolling papers are 100% pure hemp organic paper, made from Arabic gum, unbleached-chlorine free, for the best quality smoke. Also, we have high-quality papers for every budget level. Whether you're looking for Rolling Paper Booklets to hand out as a promotional item or you are building a "brand" offering nothing but the best quality papers to your clients. We will provide you with a product you can be very proud to call your own!

At Great American, our team's focus is building client relationships through excellent customer service and high-quality product. Roll to fly with us.

ABOUT

The Great American Rolling Paper Company (GARP Co.) designs and prints custom rolling papers for large events, celebrities, smoke shops, and more anywhere in the world. GARP Co. also produces high-end natural branded rolling papers, free of damaging chemicals, and is 100% organic. The company is located in Ybor City of Tampa, FL -- in the heart of what was the Cigar Capital of the World in the 1930s.

The mission at The Great American Rolling Paper Company is to provide an experience that doesn't tamper with the flavor of a hand-rolled smoke, while at the same time, provides a custom branded opportunity to reach customers where they are at their most comfortable.

The GARP Co. rolling papers are perfect for customers ranging from celebrities, dispensaries, the restaurant and bar industry, high profile events and celebrations, to the cannabis industry, and more that wish to take their brand from concept to design with custom rolling papers made from 100% pure hemp paper, and organic soy ink.

GARP Co.'s team of expert sales representatives, world-class graphic designers, and ingenious rollers are available to handle the order from inception, to design, to delivery. A complete end-to-end experience that customers are sure to love. The products range from a single booklet to cone products; they even offer smoking kits on the online retail store. The website has an easy step-by-step ordering process or users may speak with a representative at any time to ensure the customer gets exactly what they are looking for.

The Great American Rolling Paper Company rolling paper strives to become the go-to source for premium rolling papers. GARP Co. offers its clients, customers, and partners the very best in service and is one of the premium rolling paper branded companies to produce custom paper solutions and services, that are also vegan-friendly.

PRE ROLL ACCELERATOR

American innovation inspired by the legacy of Swiss precision. It is preparation meets opportunity. We apply common sense in industrial design to develop effective automated solutions for existing market industries and our clients.

SHREDDER ACCELERATOR

One of a its kind. Immaculately engineered machine complex yet simple in method and robust in capabilities. We didn't reinvent the wheel here, we made it better. Consistently and concisely shred one pound of dried product into ready-to-process product within minutes.

PRE ROLL ACCELERATOR

THE PERFECT PRE-ROLL

Beautifully engineered machine capable of producing 396 consistently packed and measured pre-rolls per pound of cannabis in less the 60 seconds per cycle.

Comprised of a stainless steel core, aerospace-grade anodized aluminum, carbon-fiber, and to operate with nylon-based honeypods. The Pre-Roll Accelerator is a two-piece hub with limited-friction design that enables smooth production and servicing.

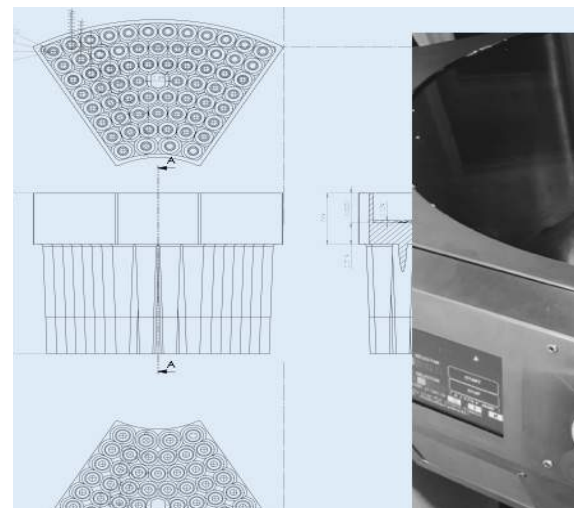

This state-of-the-art machine uses three rotational forces simultaneously to drive precision packing of each pre-roll.

OSHA compliant
Schneider Electric and WEG are
OEM Partners

Safety Features: Schneider Electric
HMI- Smart computer and sensors
that monitor vital aspects of all pro-
cesses during operation with auto
delay and shutdown.

The Pre-Roll Accelerator is custom made for the Cannabis industry, dynamically balanced, and boasts our black-hole design which offers more weight per swing and the maximum power while retaining its compact size for work-friendly operations.

- Ensure brand awareness by keeping up with the growing industry
- 50%-100% margins increase by creating pre-rolls
- Optimize the number of pre-rolls out of every pound, at near 100% consistency
- No cherry drops, No more runs, No pockets, No crutch
- Achieve the PERFECT BURN IMPACT formula with each pre-roll
- No loss of product in production
- Fills and packs at the same time
- NO VIBRATION METHOD
- No Maintenance, simple cleaning, easy to use.

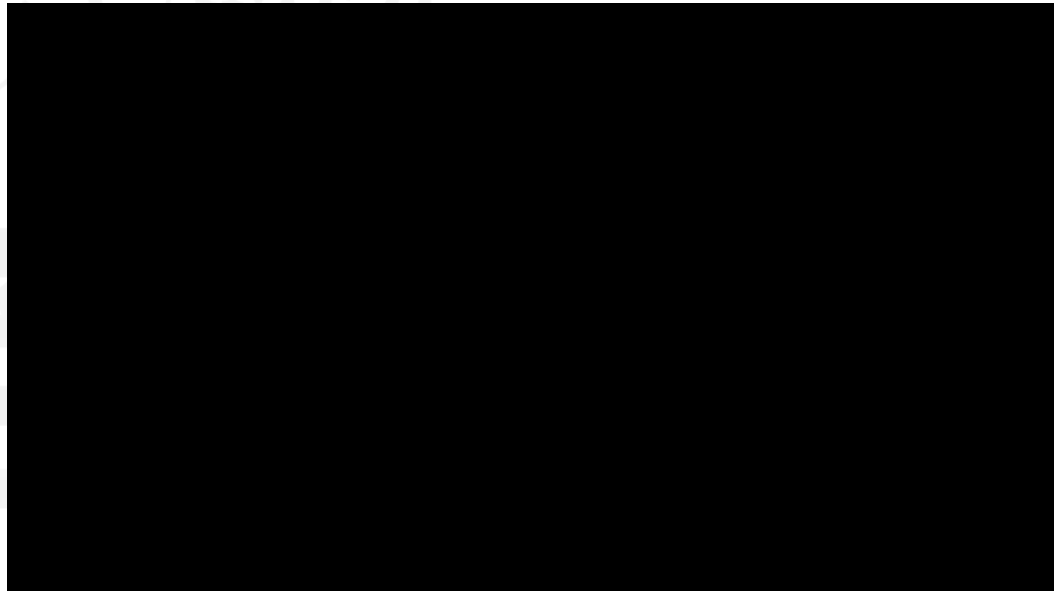

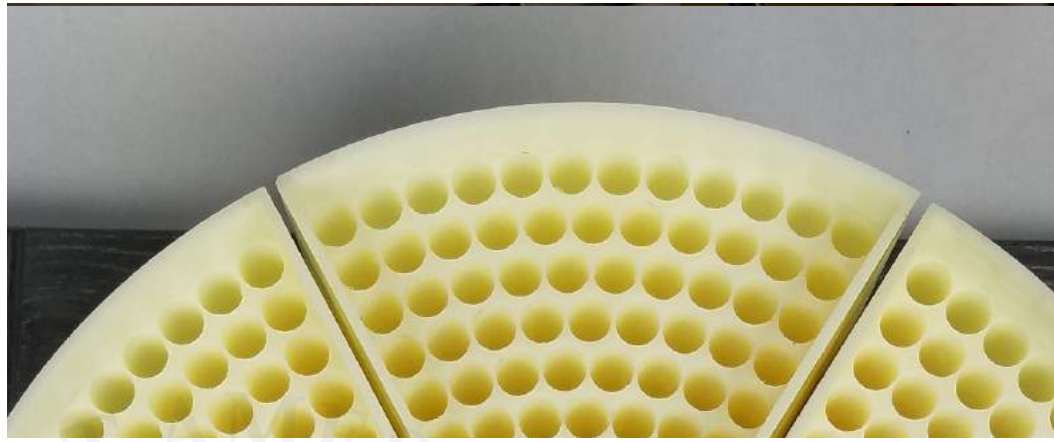

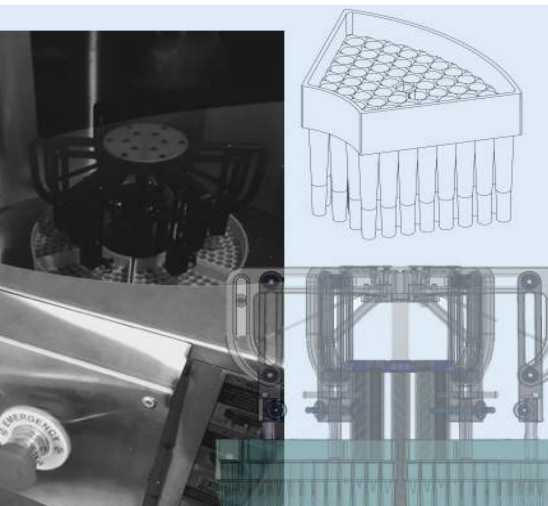

Flexibility to make 396 pre-rolls in less than 60 seconds with option to spin lesser quantity. Each device comes equipped with an HMI touch-screen interface to customize the density of your pre-roll pack.

PLAY VIDEO

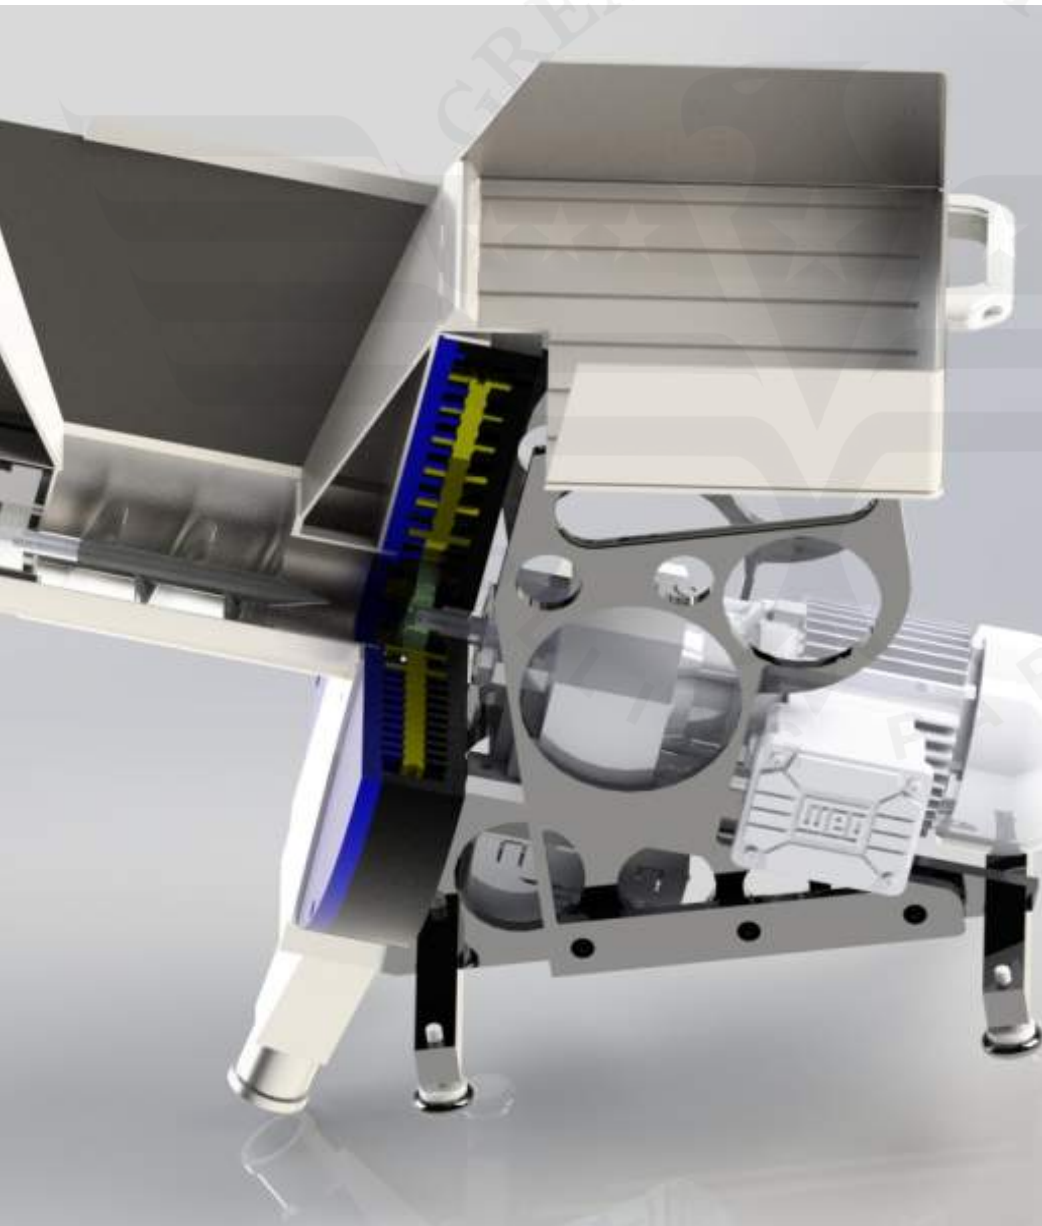

PATENT PENDING PODS:

In addition, the nylon-based adaptive cellular matrix is an FDA approved, true non-stick and poreless material that can be sterilized at temperatures up to 400°. It accommodates any size or model cone, precise to the mm and degree to ensure perfect seating and zero wrinkling.

SHREDDER ACCELERATOR

Option of single phase variable speed controller or 3 phase for more torque.

Optional speed controller of 0-97 rpm, 480 inch-pounds of torque

3/4 hp WEG motor
Teflon or stainless steel auger hopper for easy and safe product deployment into shredder

Minimal cleaning of machine, minimal human touch to operate machine

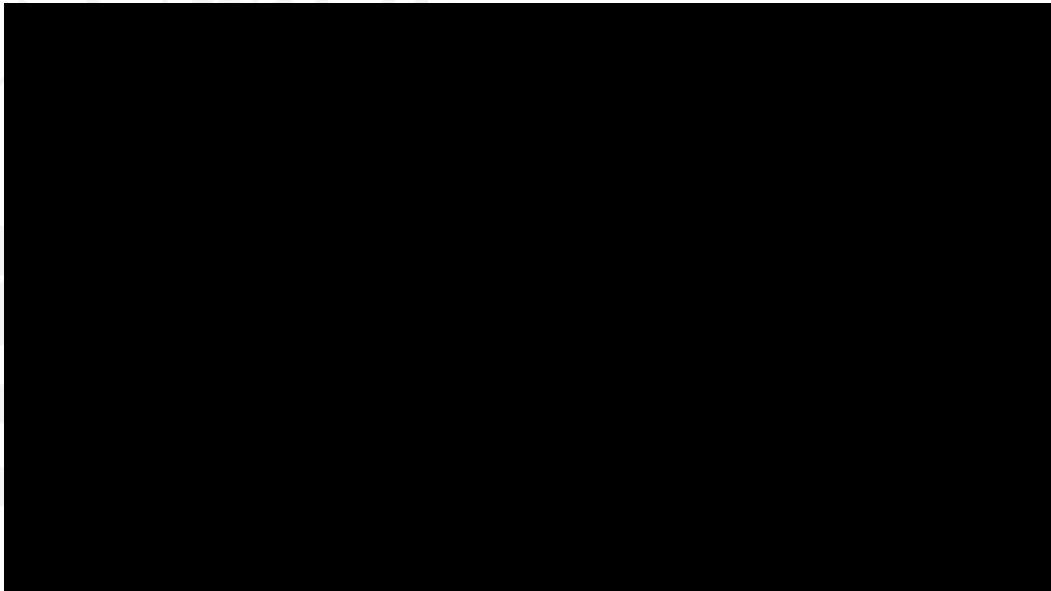

Effectively and consistently breaks down the flower including stems without damaging the product, no powder, no uneven shred.

Double sided shredding wheel is made of 7075 hard coat anodized aluminum

Properly shreds and prepares product for next step processing whether for pre-rolls, extraction and/or infusions
