ROLLING PAPER COMPANY

Why Choose Great American? Better Product. Better Service. Better for the Planet.

Roll the Best.

Great American Rolling Papers craft custom rolling papers using only the finest sustainably sourced raw materials. Our papers are thin, lightweight, and slow burning for a refined smoking experience you just can't find anywhere else. We use vegan gum arabic, all non-GMO ingredients, and certified organic hemp. Our paper is manufactured for folks who care about what they smoke, so if you want to roll with the best,

Roll With Great American.

Legendary Customer Service.

At Great American Rolling Papers, customer service is not just a department, it's our whole company. From the first call all the way to final delivery, our goal is creating an amazing customer experience, and total customer satisfaction. There are plenty of companies that do what we do, but none do it better.

Be What You Smoke. Green.

We use all E.U. sourced, responsibly forested raw materials for all of our packaging, and our rolling papers.

Our hemp paper is certified organic, and all our gum is natural vegan gum arabic (no horse hooves or chemical based glues). Our rolling papers contain no genetically modified organisms, no dyes, no accelerants and no harsh chemicals. We are FSC (*Forest Stewardship Council*) certified, and we are committed to environmental protection and ethical material sourcing. How are your papers made?
